QUICKLY LOCATE OUR MOST POPULAR
MEDALLIONS WITH THIS USEFUL GUIDE!

THE CUSTOM ADVANTAGE

Unlimited potential awaits you with Oshkosh Designs' custom capabilities. Sizes and materials can be modified to suit your vision, or we can bring your original design to life.

Visit www.oshkoshdesigns.com and click on the custom tab to view a sampling of the custom designs that have been created by our in-house design team.

An example of the standard wood Bellarosa recreated in an oval format with an additional rose bud.

Can you customize the shape of your inlay? Yes. We have recreated many of our circular designs in ovals, squares or even hexagons.

An example of the standard stone Cassina recreated in wood.

Can you combine components from several inlay to create a custom design? Yes. The above example shows a custom design created by adding the outside ring of the Chatham to the Post Modern.

Can a stone design be recreated in wood? Yes. Any design within our product line can be customized with materials to fit your project.

MEET THE CUSTOM DESIGN TEAM ...

With over 20 years combined design experience, Lisa, Rachel and Jeremy have created hundreds of custom designs. They will work with you, in partnership with your supplier, from concept through final production. The resulting custom inlay will be as unique as the team that helped to design it!

THE CUSTOM ADVANTAGE

Custom inlay by Oshkosh Designs allows home owners the ability to easily create distinctive design elements within their home.

Private residence custom backsplash inlay.

Private residence custom La Jolla inlay created in partnership with Geneva Flooring.

Commercial installation of custom medallion through Universal Floors. This design resulted in a 2007 NWFA Wood Floor Of The Year Award (Commercial Category).

Commercial property owners have taken inlay design to the next level by creating custom inlay featuring their brand identity. As the result of Oshkosh Designs' ability to create inlay on a grand scale portion, the possibilities for commercial applications are truly endless.

Custom 45 ft. labyrinth created in partnership with the Zimmerman Design Group.

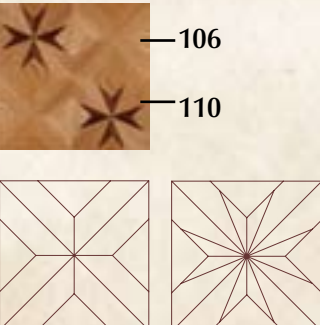

THE PARQUET COLLECTION

Taking a room from ordinary to extraordinary is achieved by adding the character and sophistication offered with the exotic woods and spellbinding designs of the Parquet Collection.

Contrasting woods and intricate patterns are the hallmark of this collection, with each design inviting movement and flow into any living space.

Carlton border shown with custom wood selections

APPLICATION

Why keep the beauty of hardwood borders strictly underfoot? Inlay a border into a tabletop, mantel, chairrail or moulding to create a signature piece for any room in the house.

American refinement, master craftsmanship and opulent exotic woods are key elements in the bold designs of the Newport Collection. Simple and stylish, the patterns personify Americana.

Thousands of years in the making, stone is the world's oldest building material. The Traditional Stone Collection finishes what Mother Nature started so beautifully, with designs that showcase marble, granite and limestone.

You will be surprised at how easily a stone medallion can be installed into a hardwood field floor. Contact Oshkosh Designs for more information on their pioneering process.

FACT

Natural stone is strong and stable to live with. It exudes an organic, beautiful surface and has a timeless, classic "presence" in any room.

WHAT DIFFERENTIATES OSHKOSH DESIGNS FROM ITS COMPETITORS?

THE PEOPLE

Achieving uncompromising high-quality standards is a given at Oshkosh Designs. This would not be possible without our dedicated employees. It is the skilled people at Oshkosh Designs who ultimately make the difference in our products, service and reputation.

Located in Winneconne, Wisconsin, the team at Oshkosh Designs is comprised of a group who takes pride in our exceptional products. Many of these individuals were instrumental in developing the processes that are integral points of difference.

THE PROCESS

Uniquely, all Oshkosh Designs inlay are still hand-assembled in our facility by our master craftsmen. The inlay is assembled piece by piece, intricately fitting one after another into the patterns that our designers have created. As many as 1200 pieces can go into one single medallion!

Each piece is checked for proper fit and alignment, in an effort to prevent gapping within the inlay. The process of hand-assembly allows for numerous checks of the materials, ensuring that the inlay is of the highest quality possible.

With the ever-increasing popularity of prefinished flooring, Oshkosh Designs has added the option of including the Artisan Finish on most wood medallions, wood borders, wood decos and wood Focal Accents within the standard production line.

Our Artisan Finish™ exceeds industry standards in both product and application. This prefinish is 100 percent metal-free, so there is no smoothing interference when sandpaper or other abrasive is used.

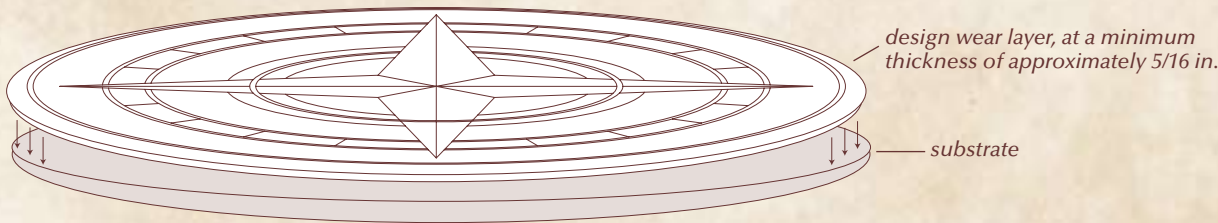

Other advantages of the Artisan Finish include:

- Even finish distribution through a spray-on application process
- Complete product emulsification with top-quality sealer
- A final top coat of Street Shoe™ cross-linked semi-gloss finish
- A warranty which will match the warranty finish of the field floor into which it is installed

THE PRODUCT

Oshkosh Designs wood products can be crafted to match the thickness of most manufacturers' field floors from 5/16 in. to 3/4 in. This is achieved during manufacturing by mounting the design wear layer of the product to a durable substrate, creating the overall desired field floor thickness.

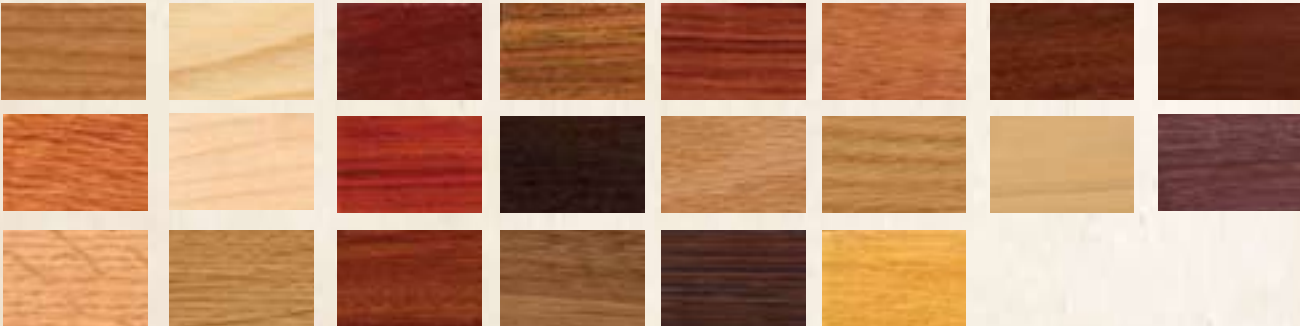

A similar process has been created for Oshkosh Designs stone medallions and borders intended for installation into wood field floors. Contact Oshkosh Designs at 877.582.9977 for more detailed information on the specifics of this process.

MATERIAL SUBSTITUTIONS

Have you found a medallion or border design in the product line that you like, but wish it were available in another wood or stone selection? Not a problem! The Oshkosh Designs manufacturing process is designed to allow for this type of customization.

WOOD SPECIES OPTIONS

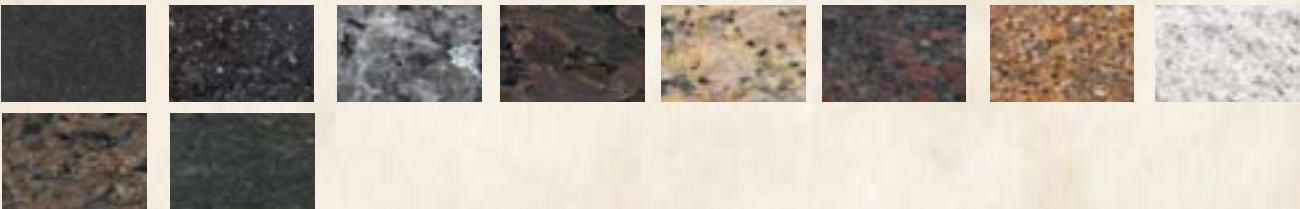

Natural wood characteristics, like mineral streaks, small knots, grain color variations and the like, are normal. Therefore, no two medallions or borders will ever be exactly the same. Color variations are a natural occurrence due to wood species, age and exposure to ultraviolet light.

Available wood species (shown above, listed in order from left to right): American Cherry, Ash, Bloodwood, Brazilian Cherry, Bubinga, Mahogany, Ipe, Jarrah, Leopardwood, Maple, Padauk, Peruvian Walnut, Plainsawn Red Oak, Plainsawn White Oak, Poplar, Purpleheart, Qtr. Red Oak, Qtr. White Oak, Santos Mahogany, Walnut, Wenge and Yellowheart

NATURAL GRANITE AND STONE OPTIONS

Natural stone sourced worldwide, whether marble, granite or limestone, adds character and beauty to our designs. Natural stone is, of course, a product of nature and will vary in color and visual integrity, giving each stone its own color, texture and structural characteristics.

Available granite options (shown above, listed in order from left to right): Absolute Black, Black Galaxy, Blue Pearl, Brown Pearl, Carioca Gold, Dakota Mahogany, Giallo Himalaya, Imperial White, Tropical Brown and Uba Tuba

Available stone options (shown above, listed in order from left to right): Breccia Serrata, Creme Limestone-Honed, Emperador Dark, Emperador Light, Empress Green, Giallo Royale, Green Slate, Inca Gold, Jerusalem Gold-Honed, Noce Travertine-Honed, Plum Slate, Rosa Tea, Rosa Verona and Rosso Travertine
